Ultimate Frisbee is now known in many countries simply as the less-catchy "Ultimate" due to the fact that Frisbee is a registered trademark.

It is a fast-paced sport with similarities to netball, football (soccer) and American Football.

Played by around five million people in the US and with leagues in the UK and other European countries, Ultimate is a far cry from the humble origins of the Frisbee.

As with many inventions there are multiple reported variations on how Frisbees came to be, but the commonly agreed version is that it comes from the Frisbie Baking Company, whose empty metal pie tins were thrown by college students in the 1920s.

Subsequently, in 1948, Walter Morrison invented a plastic version with improved aero-dynamics, and then followed the Pluto Platter.
